

3rd edition of "New Frontiers in Chemistry-from Fundamentals to Applications (NFCFA)" to be held at BITS Pilani Goa Campus

Department of Chemistry, BITS Pilani, KK Birla Goa Campus will be hosting 3rd edition of the biennial event NFCFA 2019 "New Frontiers in Chemistry-from Fundamentals to Applications (NFCFA)", during December 20th-22nd 2019.

The aim of this national conference, NFCFA 2019 is to hold an open deliberation on the state of art developments in important areas of R&D of chemistry and allied sciences, a firsthand assessment of the existing challenges with an ambition to arrive at prospective solution and define future strategy. It is supposed to provide a proper forum where senior academicians/experts and young researchers/scholars would get ample opportunity to interact and discuss the new frontiers in chemistry and share their research interests so as to have a fusion of viable ideas to be realized in future as a gift to the youngsters by their expert predecessors.

During the conference there will be Keynote/Invited lectures by eminent scientists and also Oral presentations by young Scientists. In addition, oral and poster sessions will give ample opportunity to Research Scholars for presentation of their recent results. There will be an NFCFA-ACS oral contest for research scholars and awards for poster presentations. Certificates will be given both by RSC and ACS. The previous editions of this conference, NFCFA2015 and NFCFA2017 were of great success with participation from more than 30 reputed institutes and industries (over 200 participants), quality of talks, posters, awards by RSC etc.
