# Workshop on biodesign process at BITS Pilani

**PANAJI:** BITS Pilani, K K Birla Goa Campus in association with InnAccel Technologies, Bangalore organised a two-day workshop on 'Biodesign Process: Identity, Invent, Implement and becoming a Medical technology Innovator' wherein a team of product designers and neuroscientists from InnAccel Technologies took the participants through the bio-design process.

"The use of several brain storming techniques by the participating teams helped to cull out interesting solutions to the posed medical challenge in a short time," said Professor Mridula Goel, faculty in charge of Centre for Innovation, Incubation and Entrepreneurship at BITS Pilani, adding, "Some of the concepts that were developed will be presented as to students for further research and development."

BITS Pilani has set up an incubator - BITS BIRAC BioNEST in its Goa Campus with a vision to create innovative start ups in the space of Health and Environment.

Students and faculties at the event.
