### About BITS Pilani

BITS Pilani, a deemed university and Institute of eminence, was established in 1964. With its state-of-the-art infrastructure and modern facilities, BITS Pilani Hyderabad campus provides a conducive environment for learning, research, innovation and personal growth. The campus fosters a vibrant and inclusive community where students engage in extracurricular activities, develop leadership skills, and build lifelong connections.

### About WWRF

The Wireless World Research Forum is the place where the global wireless research community meets to explore and develop the research challenges that confront us, as we look beyond current 5G deployments. With over 50 members from across 4 continents, WWRF brings together a wide range of industry and academic players, and has a particular focus on the contribution of newly emerging market sectors and developing regions.
